Environmental badge	green

Details

Very well maintained vehicle from second hand, accident-free, complete service history CH vehicle Flat, wide, sharp hip swing: The Aero Supersport is a Morgan through and through. The Aero 8 GT3 is the basis for the supersport, but for his birthday gift, Morgan has once again filed a good deal on the aluminum body. The taillights seem to originate from the Lancia Thesis. The engine is definitely from BMW, the 4.8-liter V8 provides 367 hp and is to catapult the Alu-Racers to 100 km / h in just four seconds. In addition, there are the typical headlights with a silver look, or double exhaust pipes, which are fitted laterally into the sills, with an incomparable hip swing. The roof has two removable aluminum parts, which disappear in the trunk if necessary. Combined in the interior Morning use leather-covered seat shells with wood and carbon, classic round instruments meet a few switches and a slightly chunky steering wheel with airbag.
