Details

Porsche 991.1 GT3 RS in the great color combination GT Silver Metallic and the leather / fabric bucket seats of the 911R. This vehicle is a rare opportunity! You always wanted the discreet look of the 911R, but do not give up the Porsche dual clutch transmission? We offer you the optimal solution. This GT3 RS is visually based on the 911R. The elimination of the large rear wing was adapted to the aerodynamic change by fitting the original 911R diffuser. Furthermore, the original Porsche 911R bucket seats in the Pepita retro design were installed in the interior. The modification is completed by various Porsche Exclusive Manufaktur plaques on the interior, as well as on the exterior. All modifications to this vehicle are registered and approved by the German TÜV.
