Details

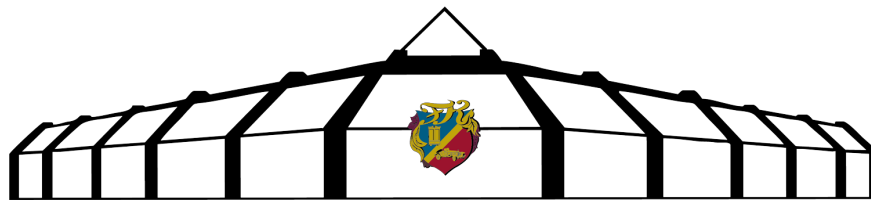

The 356 Speedster (matching numbers) here was restored in California a few years ago. In 2011 the car was introduced to Germany by the current owner and converted at Porsche AG in Stuttgart for the subsequent Tüv full acceptance with H approval. Furthermore, the top cover was renewed, an engine inspection was carried out, the gearbox was sealed, the brake system was converted and the transport damage (rear left side wall) repaired. The specified number of holders refers to the German registration documents. The actual number of holders is unfortunately not known.
